Dear Madam or Sir:

I am a Continental Airlines Frequent flyer and member of it's President's Club. I am in full support of Continental's Petition to the FCC and want to insure that Continental be able to continue to provide its own wireless service to me and other members at Boston Logan International Airport as well as other airports.

It is important to me to continue the ability to stop into the President's club and conduct electronic business during my layovers. These layovers are often brief (30 - 45 minutes) and are seamlessly transmitted through the President's club. I rely on this service whenever I fly. I find it particularly useful when I encounter multiple airports on a trip and would find using each airport's service to become rather costly since they typically rely on you to purchase 24 hours of service. These services are varied between airports and seem unfair to purchase for 24 hours when you may be there for 1 hour, then repeat the same purchase options at the next airport.

Please evaluate this situation and ensure that the frequent traveler is not caused undue financial burden by purchasing service at each airport. Thank you for ensuring the right of the public to use the wireless service of it's choice.

Sincerely,

Deb Carlson
